EDUCATION

Information Technology Degree
(Bachelor)
University of ORADEA
2014-2018

Baptist High school "Emanuel"
Oradea
2010-2014

GOOD KNOWLEDGE

Low Code/ No Code (Bubble & Bolt)

Cloud (AWS)

Gen AI

SOFT SKILLS

Communication

Teamwork

Organized & self discipline

ABOUT ME

My motto - "Be better than yesterday in everything you do."

Passionate PHP developer with 3+ years of experience building, maintaining, optimizing robust applications.

I believe that it is important to bring value where you are.

Committed to continuous learning and excellence in development.

EXPERIENCE

PHP Developer

📅 April 2021 - Present

CONCENTRIX - Cluj, ROMANIA

- I single-handedly managed a project after completing my training, delivering new implementations on time while communicating directly with the client.
- Maintained scalable Drupal apps, handling backend logic (PHP, Drupal, JavaScript).
- Debugged and resolved critical application errors.
- Writing and testing the piece of code needed for the implementation of a new feature on the existing project.

Technical Support Engineer

📅 April 2019 - April 2021

IKOULA (Hosting Provider) - Reims, FRANCE

- By creating small pieces of JavaScript scripts, I increased the efficiency of the support team's workflow.
- Main role in maintaining 40 different servers with over 12,000 clients.
The daily activities were, troubleshooting CMS platforms (Wordpress, Magento, Prestashop), migrating Databases and web files, configuring mailing services.
- I was responsible in training the new comers and showing them different procedures.
Also, I was supervising them for few days.

Web Developer (Internship)

📅 January 2019 - March 2019

Monstock (Startup) - Bezannes, FRANCE

- Worked with the UX / UI design team to improve the layout of the website, increasing the conversion rates.
- Implementation of new functionalities for the website

LANGUAGES

-  ROMANIAN (Native)
-  ENGLISH (Advanced)
-  FRENCH (Good)

CERTIFICATIONS

Database Design and Programming
with SQL
- ORACLE -
Year of completion: 2016

Responsive Web Design
- freeCodeCamp -
Year of completion: 2020

React Front to Back
- UDEMY -
Year of completion: 2020

PHP Certification
- UDEMY -
Year of completion: 2022

PHP OOP Certification
- UDEMY -
Year of completion: 2024

*can be verified on my LinkedIn

TECHNICAL SKILLS

- HTML / CSS / JavaScript
- PHP (Laravel/ Drupal/ Wordpress)
- RESTful APIs, Unit Testing
- MYSQL, MongoDB
- Bootstrap, Tailwind
- Git / Github / GitLab
- CI/ CD pipelines
- Figma / Canva / Affinity Designer

MY PROJECTS

CMS Platform (HTML/ CSS/ JavaScript/ PHP)

- CMS Platform built with the aim of deepening my knowledge in PHP language. CRUD concept, Login system and security against MYSQL injections are all available in this project.
[Visit project](https://github.com/JohnCornea/cms-blog) -> <https://github.com/JohnCornea/cms-blog>

Gallery (PHP OOP)

- MVC Application built in PHP OOP concept.
CRUD concept, Static methods, Design Patterns, using PDO for secure Database connections and working with Composer.
[Visit project](https://github.com/JohnCornea/gallery) -> <https://github.com/JohnCornea/gallery>

Github Profile Finder (React / Redux / Github API)

- Application where you can search and find the Github profile of any developer. The API allows detailed view of the profile of ex. (number of repositories, number of followers, etc.)
[Visit project](https://githubfinder1016.netlify.app/) -> <https://githubfinder1016.netlify.app/>
